DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Invention II in the reply filed on November 15, 2005 is acknowledged. Claims 1-10, and 13-15 have been canceled and claims 18-35 have been added.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11, 12, 16-35 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, between the "upper packer" and the "lower packer" as both comprises identical structure features, and there is not definitive structural connections as to how such structural elements are interconnected, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01.

Allowable Subject Matter

Claims 11, 12, 16-35 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Roeder, and Feher et al all show downhole pack-off apparatus.
